Trusted Fiduciary Partners

ABOUT US

Two Ocean partners with ultra-high net worth individuals, families, and foundations as a trusted fiduciary. Our capabilities include trust administration, private trust company governance, and integrated investment services.

As an independent, partner-owned trust company, we work with a select number of clients, allowing us to manage fiduciary and investment structures tailored to each client's specific needs. The result is durable long-term partnerships built on trust and alignment.

With offices in Jackson Hole and Las Vegas, Two Ocean provides access to the tax advantages, modern trust laws, and privacy protections of both Wyoming and Nevada.

PRIVATE FAMILY TRUST COMPANIES

We specialize in the administration of private family trust companies which cater to the needs of ultra high net worth families. PFTCs combine family ownership and involvement with the governance and compliance of our professional fiduciaries

INVESTMENT MANAGEMENT

We tailor investment strategies for private clients with generational assets. Our approach emphasizes consistent long-term growth, while managing risk through active asset allocation across a wide range of asset classes.

TRUST SERVICES

We serve in a variety of fiduciary roles including directed trustee, discretionary trustee, co-trustee, trust advisor, or trust protector. We serve as trustee for both domestic and international trusts, including trusts that hold special assets.

DIGITAL ASSETS

As a chartered trust company and Qualified Custodian, we are the first US financial institution to offer comprehensive generational management for clients who have substantial digital assets.
